

## “Scramble” Combination Lock User Instructions

1/ Locker lock will be locked, unless someone has fiddled with the dials the code 0000 will be showing

2/ Enter the correct code you have been given for the lock [in this case 1234]

3/ Turn the lock clockwise and pull the locker door open: the lock code will auto scramble to 0000

4/ Turn the lock anti-clockwise when you have closed your locker door- the lock will now be locked
